

## Crowcon Technical Note

Document Reference: GEN084 - Notice of Obsolescence (TCgard)

Subject: TCgard thermal conductivity gas detector

Date: 1<sup>st</sup> October 2018

Due to low demand and significant component obsolescence issues, the TCgard range of fixed detectors will cease to be available from the 31<sup>st</sup> December 2018.

In order to support existing customers, we would like to offer a last time buy opportunity. Please contact your local distributor, Sales Manager or Regional Office before the end of November 2018 to discuss this.

Crowcon will endeavour to maintain spares availability and support for existing installations until December 2025. This support period cannot be guaranteed however, as components may become unavailable during this time.
